

## CPSC 319 Team Meeting Minutes

### General Information

**Date:** Monday, March 4, 2013

**Time:** 3:00pm – 5:30pm

**Location:** X341 and X151

**Members Present:** All

### Agenda

- 1) SRS—incorporating Neil’s comments. We need a group decision on some of his requests.
  - Updated the document as per Neil’s requests
  - We might need to look at re-numbering sections since we will be slightly modifying the sections to fit the mockups
  - Neil will sign, scan, and email his signature.
- 2) SDS—Plans, comments, task assignments
  - March 11<sup>th</sup> is when we aim to get the revisions done by. David and Steven will be the ones working on the document.
- 3) Implementation—how is that going? Any comments?
  - **Note 1:** public methods and variables start with caps
  - **Note 2:** private methods start with small letters
  - **Note 3:** add contexts to DreamContext rather than its own
- 4) What are you going to do next week?  
IMPLEMENTATION.

### Extra Notes

If you are having trouble with C#, Evgeny suggested that you can look at the C# tutorial on MSDNA.
